Target Coverage: All of the 38 programmed COMIREX targets were photographed. In addition, 22 other COMIREX targets and 15 bonus targets (not on the COMIREX list) were photographed. Of the total 75 targets covered, 34 were rated good, 29 fair and 12 poor in regard to photo interpretability by interpreters of the 67th Reconnaissance Technical Squadron. A detailed listing of targets covered and PI rating is included as an attachment to this memorandum.

Weather in the target area was generally clear to scattered clouds. Photography of targets located at a distance from the flight line was degraded by haze.

a. 67th RTS rated film quality good and estimated cloud cover at twenty percent.

b. Following discrepancies were noted after processing:

(1) Bad static marks and roller marks on edge of 9R throughout film roll.

(2) Some fog in clock area of 9L.

(3) 9L had pattern 2 1/2 inches in from border side and approximately 2 3/8 inches apart.

7. Maintenance: Article 373 was flown on the mission as scheduled. There were no malfunctions of aircraft general, engine or flight instruments.

8. Communications: Radio, navaids and operation were satisfactory on this mission except that the [redacted] would not mute for the first 3 1/2 hours of flight. As corrective action, [redacted] and interrogator levels were reset.
